

portevent.c

```
graph TD; A[portevent.c] --> B[mb.h]; A --> C[mbport.h];
```

A diagram illustrating dependencies. At the top is a gray rectangular box labeled 'portevent.c'. Two blue arrows originate from the bottom of this box. The left arrow points to a white rectangular box labeled 'mb.h'. The right arrow points to a white rectangular box labeled 'mbport.h'. All boxes have a thin black border.
